International Medical Guide for Ships Third Edition

The third edition of the *International Medical Guide for Ships* shows designated first-aid providers how to diagnose, treat, and prevent the health problems of seafarers on board ship.

Since its first publication in 1967, the *International Medical Guide for Ships* has been a standard reference for medical care on board ships. The second edition, written in 1988, was translated into more than 30 languages, and has been used in tens of thousands of ships. This, the third edition, contains fully updated recommendations aimed to promote and protect the health of seafarers, and is consistent with the latest revisions of both the *WHO Model List of Essential Medicines* and the *International Health Regulations*.

The International Labour Organization's Maritime Labour Convention 2006 stipulates that all ships shall carry a medicine chest, medical equipment and a medical guide. The *International Medical Guide for Ships* supports a main principal of that convention; to ensure that seafarers are given health protection and medical care as comparable as possible to that which is generally available to workers ashore.

By carrying this guide on board ships, and following its instructions, countries can both fulfill their obligations under the terms of the Maritime Labour Convention 2006, and ensure the best possible health outcomes for their seafaring population.

“... major changes in the layout, including the use of twice as many illustrations, make it easier for users to find immediate advice on how to manage emergencies...”

- Hazardous Cargo Bulletin (from previous edition)

“... ideal for people to read, identify and treat a great number of injuries and ailments... it covers everything from general first aid, pregnancy and child birth, to medical care of castaways and rescued persons, and death at sea...”

- Marine Engineers Review (from previous edition)

2007, 410 pages [English]
ISBN 978 92 4 154720 8
CHF/US\$ 89.00
In developing countries: CHF/US\$ 62.30
Order no. 11503078

Table of contents

1. First aid
2. Shock
3. Pain Management
