Land in Ghana!

Update on early doses

Overall, COVAX will serve 66 participants with these early (February) doses, at least 50 of which will be receiving their 1st COVID-19 vaccines

Participant groups	Number of Countries/ Economies	First POs Volume 	First shipments 	
 SERUM INSTITUTE OF INDIA <small>Cyrus Poonawalla Group</small> 	First POs placed / in process	46	26 M doses	Feb 23
	First POs placed	20	4 M doses	Feb 27
	First wave participants	18	1.2 M doses	Feb 26

Status of COVAX February dose shipments

The workplan:

- 30.5 million POs issued for early doses (Feb+ volumes)
- 66 countries have Purchase Orders issued
- >50 of these countries will be receiving their 1st doses
- these does will count against the Feb/Mar allocations

The concerns:

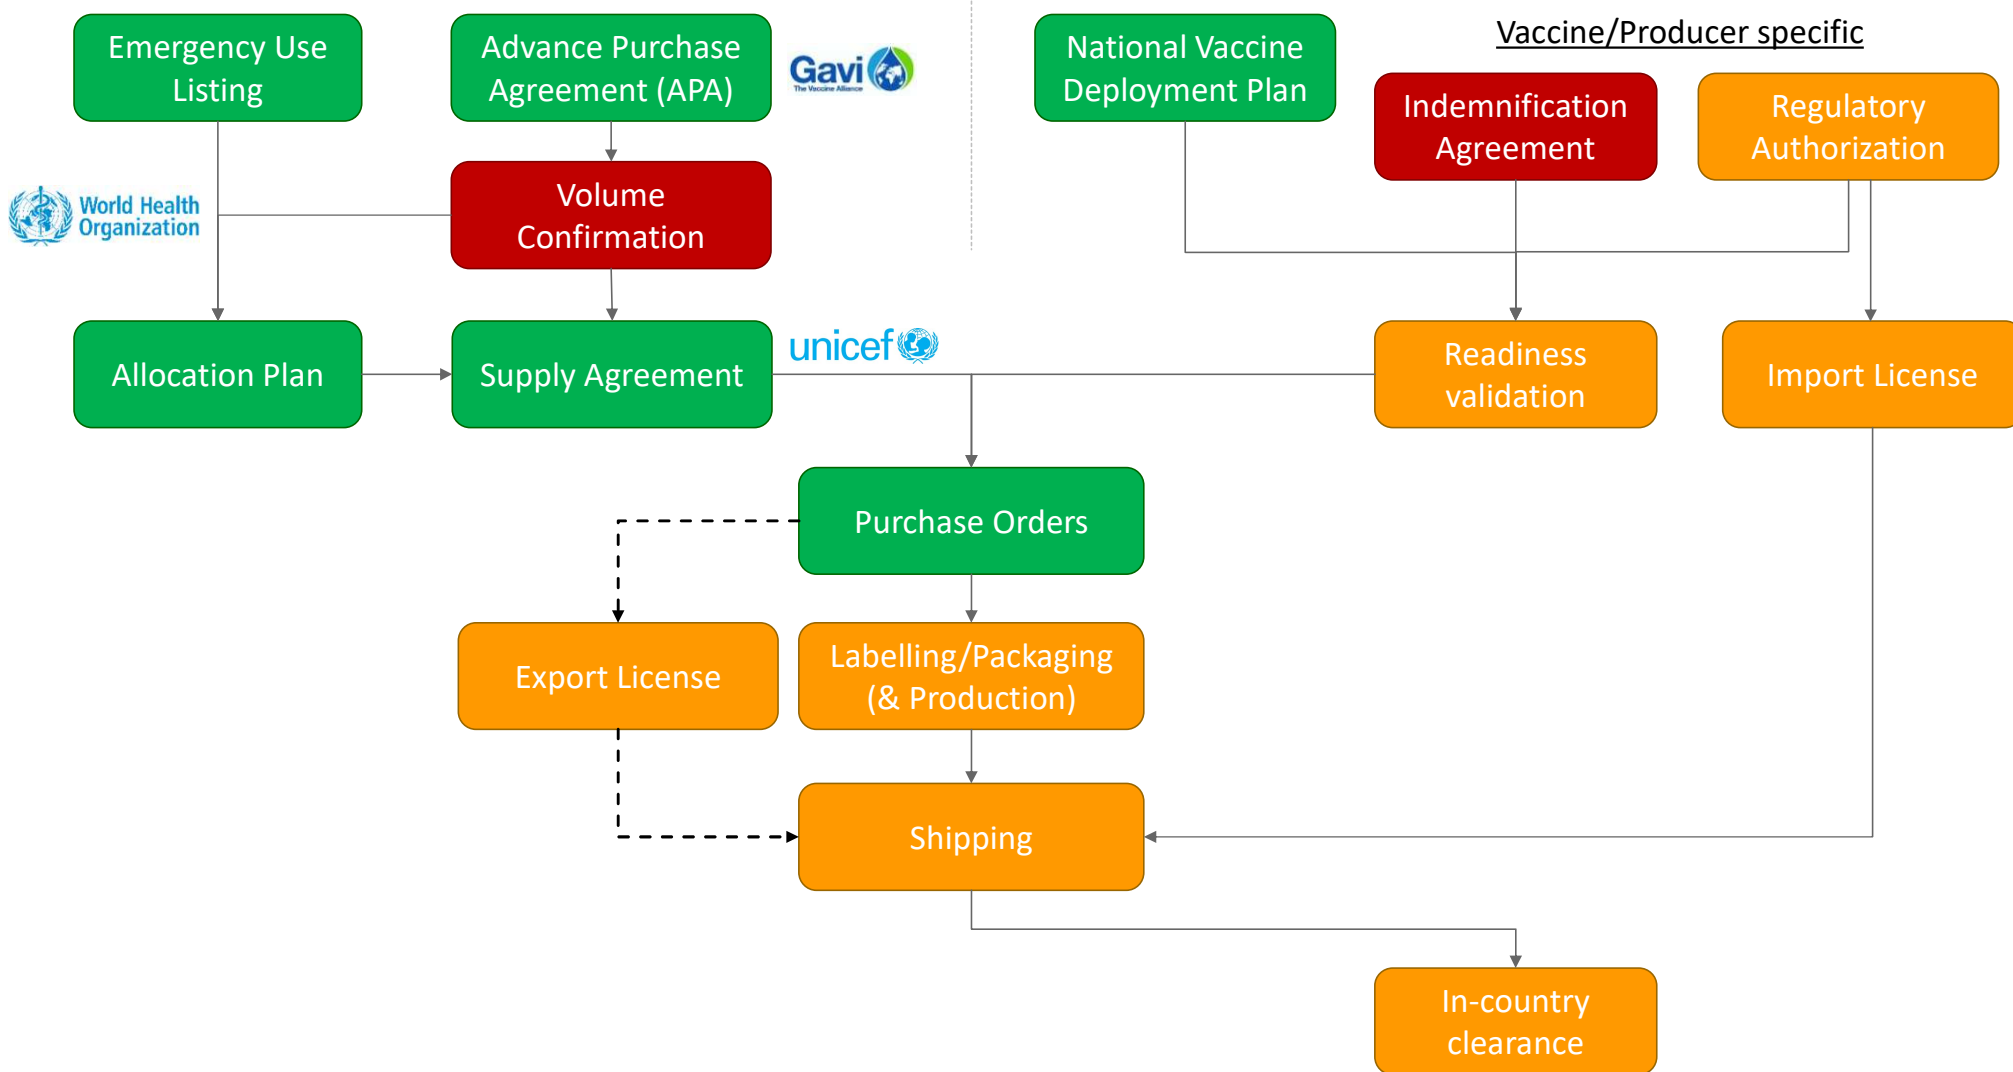

- timely export licenses (or waivers)
- increasing global competition affecting COVAX supply
- manufacturer labelling, packaging & shipping capacities
- remaining COVAX countries: rapidly meeting I&L, NFC and other requirements

VACCINE	Number of Doses (being updated)	
	FEBRUARY	MARCH
SII AZ	19,992,000	39,996,000
AZ/SK Bio	3,499,200	21,499,200
Pfizer	300,000	900,000

COVAX Deliveries – key bottlenecks at 24 Feb

International Level

National Level

Addressing the challenges to further accelerate roll-out of COVAX Facility vaccines

1. Each country needs to **submit for each product**:
 - **signed I&L agreement** (to GAVI/COVAX)
 - **Regulatory Authorization** (with WHO & PAHO/UNICEF)
 2. Ensure timely **export licenses for COVAX** (ideally waivers)
 3. Encourage manufacturers to **rapidly provide data for EUL/PQ & SAGE**
 4. All Member States allow manufacturers to **prioritize COVAX commitments**
-
