Questions and proposals for Member States

1. What kind of process works best for Member States to ask questions/feedback on SIP actions?

1. Process to engage Member States for prioritization of SIP actions? *e.g., identify “top 3” actions for each category.*
 - *Across 7 categories: (1) accountability function and systems; (2) country-level impact; (3) financing; (4) governance; (5) human resources; (6) programme budget; (7) resource mobilization*

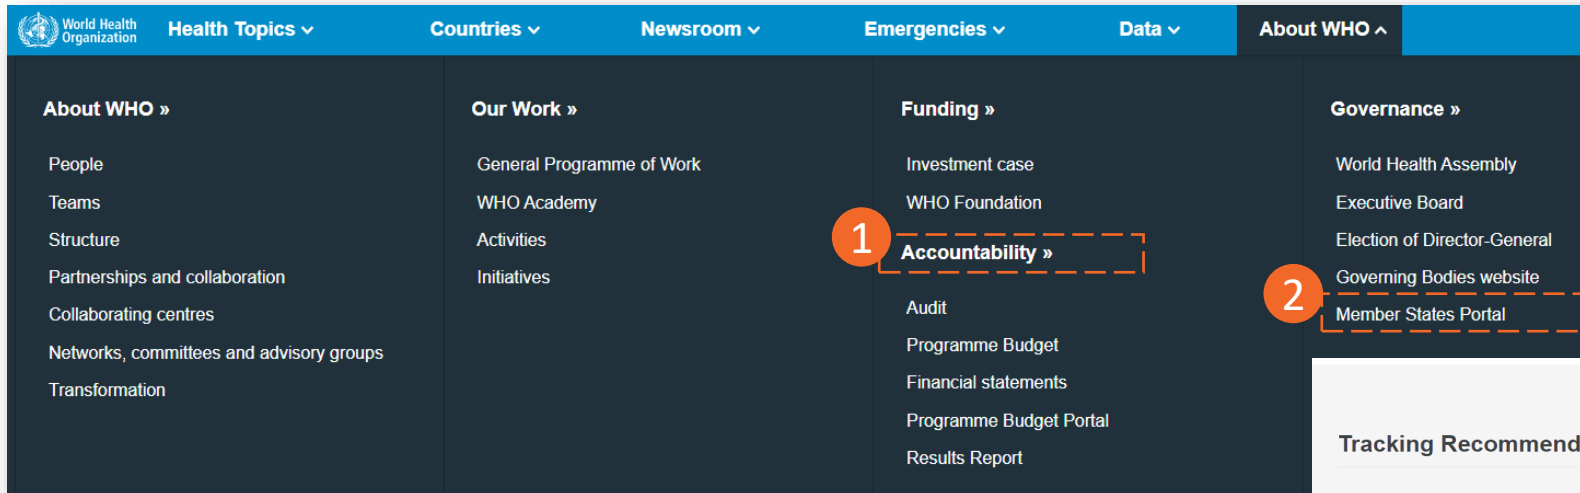

3. How to manage key risk(s) (and mitigation strategy):
 - *disruption due to insufficient human and financial capacity: implementing many requests for system strengthening, and supporting major increase in intergovernmental/inter-sessional meetings/processes – human and financial resource capacity*
