

WORLD HEALTH ORGANIZATION

EXECUTIVE BOARD
111th Session
Provisional agenda item 9.5

EB111/25 Corr.1
(English only)
14 January 2003

Ad hoc open-ended intergovernmental working group

Report of the Chairman
(Professor T. Zeltner, Switzerland)

CORRIGENDUM

Please replace paragraph 7 with the text below.

7. If the Board agrees that the group should continue its work, I would seek to facilitate that work by convening a meeting of the “friends of the Chairman” before the next meeting of the group. This informal mechanism was used successfully at the fifth meeting of the group. It should be attended by representatives of groups of Member States having submitted proposals on issues still to be considered, but would nevertheless be open to all interested Member States. The results of these informal discussions would then be submitted to the working group itself for consideration.
