

EXECUTIVE BOARD
120th Session
Provisional agenda item 7.2

EB120/24 Add.1
21 December 2006

Human resources: annual report

Report by the Secretariat

1. The information below represents a **preview** of the Organization's staffing profile as at **30 September 2006**. It includes details on the following: the overall staffing situation by main location and grade; the distribution of staff by sex, geographical representation, age profile and length of service, nature of appointment, and retirement projections; and the distribution of the workforce across the main occupational groups. The eighth human resources annual report containing complete data as at 31 December 2006 will be submitted to the Sixtieth World Health Assembly.

STAFFING PROFILE

Appointment categories

2. At 30 September 2006, WHO had a total of 4443 staff members on either fixed-term appointments of one to five years or career-service/service appointments (both referred to hereafter as "long-term appointments").¹ Of these, 1732 (39.0%) were in the professional category, 2406 (54.1%) in the general services category and 305 (6.9%) in the national professional officer category (see Table 1). The number of staff members holding long-term appointments has increased by 175 (4.1%) compared with the number reported in the annual report as at 30 September 2005.²

3. In addition to staff holding long-term appointments, there were 3697 staff holding temporary appointments (including consultants); 1275 of these held short-term appointments and 2422 held term-limited appointments (see Table 2).

Gender distribution

4. The percentage of women in the professional and higher categories has increased since the annual report as at 30 September 2005, rising to 36.4% from 35.6% (see figure).

5. The distribution of staff with long-term appointments by organizational location, grade and sex is shown in Table 3. It can be seen that, of the 1732 staff members on long-term appointments in the professional category, 1101 (63.6%) are men and 631 (36.4%) are women. This report shows that

¹ This figure excludes staff from PAHO and IARC.

² See document EB117/21 Add.1.

women outnumbered men at grades P.2 and P.3. Since the annual report as at 30 September 2005, the representation of women at grades P.4 and above has improved. The proportion of women at grade P.4 is now 40.7% and at P.5 it is 31.4%; however, at P.6/D.1 level it has declined from 21.0% to 19.3%. There has been an increase in the proportion of women at D.2 level, which has risen from 24.4% to 28.6%. The proportion of women in ungraded posts has also increased, rising from 28.0% to 28.6%.

Geographical representation

6. Of the 1540 staff serving in posts counted for geographical purposes, 822 were nationals of developed countries (53.0%). The table attached at Annex to the current annual report¹ shows recruitments during the period 1 January to 30 September 2006. It indicates that of a total of 133 appointments, 29.0% were from developing countries.

7. As of 30 September 2006, 110 countries were within their desirable range (including seven at the top of their range of representation); 42 countries (including two Associate Members) were unrepresented, eight were underrepresented and 35 were overrepresented (see Table 4). Table 5 gives details of the status of representation of countries, by region (the date excludes staff in posts funded by the country of their nationality). The following changes have taken place since the annual report as at 30 September 2005:

- two countries that were unrepresented (Haiti and Luxembourg) are now within their desirable range of representation;
- one country that was previously within its desirable range of representation (Singapore) is now unrepresented;
- one country that was underrepresented (Mexico) is now within its desirable range of representation;
- one country that was within its desirable range (United States of America) is now underrepresented;
- four countries that were overrepresented (Jordan, Mali, Mauritius, and Russian Federation) are now within their desirable range of representation;
- five countries that were within their desirable range of representation (Italy, Malawi, Sri Lanka, Thailand and Zimbabwe) are now overrepresented.

8. Table 6 provides information on the distribution of professional staff by location of assignment and region of nationality.

Age, gender, region, grade, length of service and turnover of staff

9. Over half the staff in the professional category (52.9%) are aged 50 or more. In the general service category, staff aged 50 or more continue to represent the largest age group (38.2%), whereas in

¹ See document EB120/24.

the national professional officer category, staff in their forties represent the largest age group (44.9%) (see Tables 7 and 8).

10. The largest single group of staff (representing 43.8% of the workforce) has less than five years of service. The approximate average length of service is more than seven years for professional staff and 11 years for general service staff (see Table 9).

11. Table 10 provides data on staff appointments (involving staff who have taken up duty in the period to 30 September 2006). In the case of the professional category, it shows that 61 staff (43.6%) were recruited externally, 64 appointments (45.7%) represented conversions of existing temporary contracts, and 15 staff (10.7%) were reassigned through interagency transfer. In the professional category, 41.0% of new appointments were women (against 40.2% as at 30 September 2005).

12. According to current projections, almost 17.0% of the workforce is due to retire within the next five years and just under 38.0% within the next 10 years (see Table 11).

Occupational groups

13. 50.2% of the posts held by professional staff are in the category “Dental, nutrition, medical, nursing and veterinary specialists”. Within this group, 91.5% are “Medical specialists” and 1.5% are “Nursing specialists”. The second largest occupational group is that of “Administrative specialists”, which accounts for 26.8% (see Table 12). In that group, 19.1% of posts are held by “Administrative officers”, 12.8% by “Technical cooperation administrators”, 12.3% by “Computer information systems specialists” and 11.6% by “Financial management specialists”.

ACTION BY THE EXECUTIVE BOARD

14. The Board is invited to note the report.

FIGURE AND TABLES

15. The figure and tables referred to in the preceding paragraphs are listed below for ease of reference:
