

Scale of assessments for 2018–2019

Report by the Director-General

1. This report outlines the proposed scale of assessments for the financial period 2018–2019.
2. The latest available United Nations scale is the scale of assessments adopted in December 2015 for the period 2016–2018,¹ which was used by WHO for its scale of assessments for the second year of the biennium 2016–2017.² It is therefore proposed that this United Nations scale should be used by WHO for the financial period 2018–2019, adjusted for differences in membership between WHO and the United Nations, in accordance with the usual practice. This is unchanged from the scale currently in use by WHO.

3. The Executive Board is invited to consider the following draft resolution:
