

## **Pandemic Influenza Preparedness Framework for the sharing of influenza viruses and access to vaccines and other benefits**

The Executive Board, having considered the report by the Director-General<sup>1</sup> and the proposal submitted on the proportional allocation of Partnership Contribution resources between preparedness and response, as required under the Pandemic Influenza Preparedness Framework, Section 6.14.5, decided:

- (1) that during the next five years (from 1 March 2018 to the end of 2022) the current proportional division between pandemic preparedness and response (70% of contributions for pandemic preparedness measures and 30% for response activities) shall continue;
- (2) that, in order to ensure that the proportional division does not hinder necessary response measures during pandemic influenza emergencies, the Director-General shall continue to be able to modify temporarily the allocation of Partnership Contribution resources as required to respond to such emergencies; and that the Director-General shall report on any such modification to the Executive Board;
- (3) that the proportional division shall be reviewed again in 2022.

(Eleventh meeting, 26 January 2018)
