Note 1. Revenue from voluntary contributions is recognized in accordance with IPSAS 23 (Revenue from Non-Exchange Transactions). Revenue is recorded when a binding agreement is signed by WHO and the contributor. Where there are "subject to" clauses in an agreement, WHO does not control the resource and does not record the revenue and amount receivable until the cash is received. Where there are no payment terms specified by the contributor or payment terms are in the current accounting year, revenue is recognized in the current period. Where payment terms specify payment after the year end, the amount is reported as deferred revenue. Revenue recognition will be revised based on changes to the payment terms listed in the signed agreement. Where the start date is indicated as being in the following year, revenue is recognized in the following financial year with any cash receipt recorded as an advance – see Schedule 6.

Note 2. Interfund revenue represents the transfer of funding internally between the General Fund and the Fiduciary Fund. These are recorded as an expense to the "donor" fund and as revenue to the "recipient" fund and are eliminated on consolidation.

Note 3. Other and miscellaneous receipts include negative amounts representing a decrease in the revenue recognized in a prior period due to changes in contractual terms or a reduction in amounts receivable.

Note 4. Refunds to donors represent an outflow of resources based on a donor request following the submission of a final report showing a balance of unutilized funds. Refunds represent a decrease in the revenue recognized.
