WHO global strategy on health, environment and climate change: the transformation needed to improve lives and well-being sustainably through healthy environments

The Seventy-second World Health Assembly, having considered the report on health, environment and climate change: draft WHO global strategy on health, environment and climate change – the transformation needed to improve lives and well-being sustainably through healthy environments,\(^1\) decided:

(1) to note the WHO global strategy on health, environment and climate change;

(2) to request the Director-General to report back on progress in the implementation of the WHO global strategy on health, environment and climate change to the Seventy-fourth World Health Assembly.

Seventh plenary meeting, 28 May 2019
