Agenda N6 PHC

Dear Chair,

Kazakhstan welcomes the Decision on Primary Health Care and as a Chair of the Consultation on the Draft Decision, Kazakhstan is grateful to all our colleagues from Member-States who contributed into drafting the text of the Decision.

We recognize Primary Health Care is a cornerstone of a sustainable health system for universal health coverage and health-related Sustainable Development Goals. It is very critical that Astana Declaration on PHC is implemented, and the tool to implement it, as all counties agreed, is Operational Framework, which is to be adopted and to be finalised by May 2020 and further to be implemented by Member-States according to their local needs and priorities.

Kazakhstan is committed to support Primary Health Care locally as well as globally. We congratulate a newly appointed leader of the PHC special program Dr Surya Dalil.

We - Member-States are looking forward to learn more about the role of the new special PHC program, its functions and the mandate of the newly appointed leader of PHC special program. It is very critical for us to have a mutual vision and structure on future work on Primary Health Care at the global level.

Thank you.
