

**STATEMENT
BY THE DELEGATION OF THE REPUBLIC OF INDONESIA
ON AGENDA 7 G,H: INTERSECTORAL GAP ON EPILEPSY, ACTION PLAN (2022-2030)
TO REDUCE HARMFUL USE OF ALCOHOL
THE 150TH SESSION OF THE WHO EXECUTIVE BOARD**

Thank you Chair,

Indonesia would like to thank the Secretariat for their efforts in compiling the documentation for this agenda item.

Under this agenda item, Indonesia intervenes on sub-topic 7.h, which concerns the Action Plan (2022-2030) to prevent hazardous alcohol use.

Indonesia has created and implemented national food labeling regulations, including alcohol labeling.

The label also includes information on the amount of alcohol consumed, the legal drinking age, and a warning against the use of alcohol by pregnant women, as well as a guideline that has previously been communicated through our national online platform to inform business actors.

This regulation is in line with the WHO's draft road map.

In this regard, Indonesia would like to suggest that the WHO take into account the existing member states' regulations and practices, as well as the work of other multilateral cooperation platforms, in implementing the Road Map's recommendations.

I thank you.
