

**AFR/RC16/R1: 1965-1966**

The World Health Organization Regional Committee for Africa, meeting at Kinshasa for the sixteenth session,

Having reviewed and discussed the annual report submitted by the Regional Director,

1. EXPRESSES gratification at the progress achieved during 1965/1966 in communicable disease control and environmental health as well as in the fields of education and organization of public health services,
2. EXPRESSES the hope that the fullest account will be taken of the suggestions put forward by the Regional Committee on arrangements especially in regard to fellowships, on mass campaigns, and on the development of medical research, and
3. NOTES this report with satisfaction and heartily CONGRATULATES the Regional Director.
