

The Regional Committee,

Having reviewed the report on the Joint Government/WHO Programme Review Missions for 1989,**

1. RECOMMENDS that:

1.1. Joint Government/WHO Programme Review Missions continue to be carried out every two years;

1.2. Joint Government/WHO Programme Review Missions be utilized to introduce new innovative programmes addressing priority areas, integration of existing compatible programmes and solving of existing problems facing the implementation of the HFA Strategy;

1.3. Member States initiate preparatory action at least six months prior to the initiation of the review, and that this preparatory phase be utilized to review all existing programmes and propose new programmes that will address problems facing HFA Strategy;

2. REQUESTS the Regional Director to:

2.1. provide all necessary support to countries to implement this resolution, and to continue his efforts in assisting the updating of national HFA strategies;

2.2. consider the possibility of including a member who is a national of another country in the team representing WHO in the Joint Programme Review Mission.
