

**EB49.R44 Co-ordination with other organizations of the United Nations system : General matters**

The Executive Board,

Having considered the report of the Director-General on co-ordination with other organizations of the United Nations system: general matters;

Recalling resolution WHA24.52; and

Stressing again the role WHO should play by urging governments to give due priority to health activities related to overall development,

1. TAKES NOTE of the report;
2. CONCURS with the preparatory steps which are being taken by the Organization in response to resolution WHA24.49 for the first review and appraisal of progress in the implementation of the International Development Strategy for the Second United Nations Development Decade to take place in 1973;
3. NOTES the progress made in carrying out country programming;
4. RE-EMPHASIZES the importance governments should attach to health aspects in country programming; and
5. REQUESTS the Director-General to continue to provide national health administrations with all possible assistance in health planning and country programming.
