Introduction

This document is intended to be a record of all the revisions done to the ICTRP search portal pages. It is updated by the ICTRP Secretariat on a regular basis and published on the internet in pdf format.

Main page (simple search)

Version	Date	Updates
V3.6	13 November 2017	Added missing data elements to the export function in the home search. Added results available field in the results display page. Added results section with 3 fields in the trial details page
V3.5	31 November 2016	Added prospective registration field to the results display page and the trial details page . Added search by phase. Added search by clinical trials in children.
V3.4	31 January 2014	Changed the export to xml function to use the same one used in Advanced search V3.3
V3.3	16 September 2011	Added Export to XML function which allows exporting all results or selected records to XML file
V3.2	2 October 2009	Updated the UMLS metathesaurus version from 2007AA to 2009AA
V3.1	30 April 2009	Added direct hyperlink to trial details page in Trial.aspx
V3	10 December 2008	A new way of displaying search results was implemented on 10 December 2008 with the launch of Version 3. The Portal now groups together records referring to the same trial by matching main trial identifiers to secondary trial identifiers found in trial records. This new display method will uniquely identify trials when trial details have been recorded in more than one trials register and secondary identifiers have been entered.
V2	4 July 2008	Search terms can be words or phrases Search automatically includes synonyms of terms Search terms can be combined using Boolean operators (AND, OR, NOT) Search terms can be truncated using an asterisk (*) wildcard Features have also been added to the search results page UMLS applied to all the fields included in the simple search textbox (A UMLS documentation page is being prepared and will be available soon)
V1	4 May 2007	ICTRP Search portal launched

Advanced Search
