COVAX Reminder: 4 February 2022

Key Date for AMC Participants to provide vaccine demand

• **What’s needed?** 6-month forecast of COVID-19 vaccine supply requirements – including product preferences

• **Why?** updated country demand data is critical for **next major COVAX Allocation Round** (aims to cover 6 months of supply)

• **How?** using Excel template shared in mid-January. Support available from WHO & Unicef Country Offices & Gavi teams

**NOTE:** this is a key part of the ongoing work between COVAX partners & countries to update **demand projections on a monthly basis** with focused support to countries facing challenges in absorption, stock levels, or funding
