Member States
OVERVIEW

MEMBER STATES

- Disseminating IHR (2005) monitoring & evaluation outputs and linking critical gaps and needs to priority actions.
- Coordinating country & donor action for health security preparedness.
- Strengthening and supporting implementation of strategic WHO/Donor partnerships.
- Monitoring progress toward GPW 13 targets and acceleration of the UHC 2030 Agenda, and SDG.
- Country-centered coordination for governments, UN entities and partners in real-time.
- Planning & tracking activities for COVID-19 readiness and response aligned with IHR.
- Transparent, rapid sharing of resource needs and identification of priority gaps.
- Providing visibility and tracking of donor funding committed to the response.
- Focuses on funds received and implemented by WHO.
- COVID-19 transparency and accountability to Member States and donors.
- Links to SPRP pillars and is updated weekly.
- Part of WHO’s commitment to the International Aid Transparency Initiative (IATI).
- Disseminating IHR (2005) monitoring & evaluation outputs and linking critical gaps and needs to priority actions.
- Coordinating country & donor action for health security preparedness.
- Strengthening and supporting implementation of strategic WHO/Donor partnerships.
- Monitoring progress toward GPW 13 targets and acceleration of the UHC 2030 Agenda, and SDG.

Providing complementary data from acute events to continuum of long-term preparedness.
COVID-19 Partners Platform (PP) country-centered readiness and response with global coordination – an example of solidarity

Web-based platform enables real time scale-up with over 5500 government, UN entities and partner users

- **Planning & Monitoring**: Collaborative planning & tracking of activities based on current guidance
  - 142 Countries have administrative users on PP including 109 countries uploaded national plans and 104 countries used the Action Checklists

- **Dynamic Costing**: Transparent sharing of resource needs when funds not available in-country
  - 89 Countries have shared resource needs across 9 pillars of health representing US$9.1B

- **Visibility**: Providing visibility of donor funding committed to the response
  - 740+ Donor contributions recorded, representing US$7.5B

- **Requesting Supplies**: Facilitating the request of critical supplies through the Supply Portal
  - 90+ Countries are using the Supply Portal

Countries have administrative users on PP including 109 countries uploaded national plans and 104 countries used the Action Checklists.

Countries have shared resource needs across 9 pillars of health representing US$9.1B.

Donor contributions recorded, representing US$7.5B.

Countries are using the Supply Portal.
WHO Programme Budget Portal/COVID-19

- Key tool for transparency and accountability to Member States and donors
- Presents where funds are received from and how they are utilized (by donor, by countries, by SPRP pillars) by WHO
- Based on the same data and principles as the Programme Budget portal
- Part of WHO’s commitment to the International Aid Transparency Initiative (IATI)
Launch of WHO Resource Mapping (REMAP) tool to support National plans.
Global Mapping Donor and Partner’s Investments for Health Emergency Preparedness

As example – Resource Mapping CHAD

Financial and technical support for preparedness and response including COVID-19

Mobilization of 14 Partners

- AFDB
- China
- DFID
- FAO
- Ministry of Foreign Affairs, Denmark
- Novartis
- U.S DoD
- U.S DoS
- UN Central Emergency
- UNDP
- UNICEF
- US - USAID
- Union Européenne
- WORLD BANK
Access the Homepage at https://covid19partnersplatform.who.int
Countries upload plans and designate administrative users on the Platform including national authorities, UN entities and partners.
Track activities implemented in the **Action Checklist** for 9 pillars of public health including maintaining essential health services, at national and subnational levels.

**Actions to be taken**

- Activate multi-sectoral, multi-partner coordination mechanisms to support COVID-19 emergency preparedness and response at all levels
- Ensure information platform and process in Emergency Operations Center (EOC) are updated to support COVID-19 response operations *(new May 2020)*
- Engage all relevant national authorities, key partners and stakeholders to develop a country-specific operational plan with estimated resource requirements for COVID–19 preparedness and response, or adopt, where available, an existing Influenza Pandemic Preparedness Plan (IPPP)
- Conduct initial risk analysis and capacity assessment, including mapping of vulnerable populations, specific to the setting, to inform the operational plan, with a focus on reducing health and social inequalities that disproportionately affect women and girls
- Begin establishing metrics and monitoring and evaluation systems to assess the effectiveness and impact of planned measures
- Define rationale and conduct iterative risk assessments using a systematic approach with the participation of relevant sectors to consider introducing, adapting and lifting public health and social measures (PHSM)
- Determine and monitor the adequacy of the response to be taken by transmission scenario, level of government and/or low-capacity or humanitarian setting *(see Special Considerations) (new May 2020)*
Demo Partners Platform

Add new Resource Needs, access the using dynamic costing tool and rapidly update when need for international support increases, access Supply Portal and view Needs of all countries.

Implementation of COVID-19 Strategic Preparedness and Response Plans (SPRP)
Country Capacity Building for Long-term Preparedness including implementation of NAPHS and Health System Strengthening
Conclusion

- These platforms enhance the support WHO provides to countries and facilitates policy & decision makers to coordinate strategic actions and investments.
- Leveraging the COVID-19 collaborations and strategic partnership will accelerate sustainable preparedness, resilience and response
- We must collectively continue to maintain transparency and accountability

Next Steps

- Continued support to countries to strengthen capacities and align investments towards preparedness and response for health emergencies
- Scaling up the platforms for the monitoring of acute event response plans, readiness for imminent threats, NAPHS implementation, addressing resource gaps, and building IHR capacities for long-term health security
- WHO encourages Member States and partners to use these platforms to share and update current information, plans and needs, and to provide feedback to further enhance the portals presented today
