111th Session
Provisional agenda item 10.5

EB111/32 Corr.1
30 December 2002

Eradication of poliomyelitis

Report by the Secretariat

CORRIGENDUM

Please note that the Central African Republic and Mali have achieved certification standard surveillance (data as of 12 November 2002). Accordingly, the map below should replace Figure 2 in the Annex of document EB111/32.

Figure 2. Performance of acute flaccid paralysis surveillance for the eradication of poliomyelitis in 2002 in the three WHO regions yet to be certified as free of poliomyelitis (data as of 12 November 2002)
