

Scale of assessments

Report by the Director-General

1. The United Nations General Assembly has recently adopted a new scale of assessments for the three-year period 2010–2012.¹ The latest WHO scale, adopted last year by the Sixty-second World Health Assembly for the period 2010–2011,² was based on the United Nations scale in place at that time,³ which covered the period 2007–2009.

2. When a new United Nations scale is adopted after the WHO has adopted its own scale, the Health Assembly may decide to amend the Organization's scale for the second year of the biennium – a change provided for under the Financial Regulations of the World Health Organization. In practice, as the United Nations has a three-year budget cycle and WHO a two-year one, a mid-biennium amendment of this sort may need to be made every sixth year.

ACTION BY THE EXECUTIVE BOARD

3. The Board may wish to propose that the Sixty-third World Health Assembly should decide that the scale of assessments for 2011 should be as set out below.
