

Scale of assessments 2022–2023

Report by the Director-General

1. The United Nations General Assembly has recently adopted a new scale of assessments for the three-year period 2022–2024.¹ The latest WHO scale, adopted last year by the Seventy-fourth World Health Assembly for the period 2022–2023,² was based on the United Nations scale in place at that time,³ which covered the period 2019–2021.
2. When a new United Nations scale is adopted after WHO has adopted its own scale, the Health Assembly amends the Organization's scale for the second year of the biennium – a change provided for under the Financial Regulations of the World Health Organization. In practice, as the United Nations has a three-year budget cycle and WHO a two-year one, a mid-biennium amendment of this sort may need to be made every sixth year.
3. The revised WHO scale of assessments for 2023 involves decreased assessments payable for 64 Member States and increased assessments for 71. For the remaining 59 Member States and two Associate Members, assessments payable are unchanged. Details of the changes are provided in the Annex.
4. The revised WHO scale of assessments for 2023 has also been amended for the inclusion of the Faroe Islands, which was admitted as an Associate Member by the Seventy-fourth World Health Assembly.⁴

ACTION BY THE EXECUTIVE BOARD

5. The Board is invited to consider the following draft resolution:

The Executive Board,

Having considered the report on the scale of assessments for 2022–2023,⁵

¹ United Nations General Assembly resolution 76/238, as adopted by the General Assembly on 24 December 2021.

² Resolution WHA74.13 (2021).

³ United Nations General Assembly resolution 73/271, as adopted by the General Assembly on 22 December 2018.

⁴ Resolution WHA74.2 (2021) and decision WHA74(29). No amendment has been made to the scale of assessment for the Faroe Islands in 2022, and its 2022 contribution will be recorded as miscellaneous income.

⁵ Document EB150/31.

RECOMMENDS to the Seventy-fifth World Health Assembly the adoption of the following resolution:

The Seventy-fifth World Health Assembly,

Having considered the report of the Director-General,

ADOPTS the scale of assessments for 2023, as set out below.
