Assessments for 2006-2007

Report by the Director-General

1. By resolution WHA56.33, the Fifty-sixth World Health Assembly (2003) decided to accept henceforth the latest available United Nations scale of assessments for assessed contributions of Member States.
2. The Fifty-seventh World Health Assembly adopted a scale of assessments for 2005 reflecting the application to WHO of the latest available United Nations scale,¹ namely that applicable for the period 2004-2006. That scale continues to be the latest available. The Executive Board recommended that this scale thus should continue to be used by WHO for the financial period 2006-2007.

ACTION BY THE HEALTH ASSEMBLY

3. The Fifty-eighth World Health Assembly is invited to consider the draft resolution contained in resolution EB115.R8, which lists the proposed scale of assessments to be applied for the financial period 2006-2007.
