

Scale of assessments for 2012–2013

Report by the Director-General

1. The Fifty-sixth World Health Assembly adopted resolution WHA56.33 in May 2003, in which it decided, *inter alia*, to accept henceforth the latest available United Nations scale of assessments for assessed contributions of Member States.
2. In May 2010 the Sixty-third World Health Assembly adopted a scale of assessments for 2011.¹ This reflected the application to WHO of the latest available United Nations scale, namely the one adopted for the period 2010–2012 in United Nations General Assembly resolution 64/248. That scale remains the latest one available. The Executive Board at its 128th session in January 2011 adopted resolution EB128.R2,² in which it recommended to the Sixty-fourth World Health Assembly the adoption of the same scale for the financial period 2012–2013.

ACTION BY THE HEALTH ASSEMBLY

3. The Health Assembly is invited to adopt the resolution recommended by the Executive Board in resolution EB128.R2, which sets out the proposed scale of assessments to be applied for the financial period 2012–2013.
