Note 1. Voluntary contributions — core include two types of income: funds received to support the Programme budget as a whole, considered fully or highly flexible; and funds that are earmarked for purposes within the Programme budget, considered designated, or medium flexible. Fully flexible funds and highly flexible funds, earmarked only at the level of the strategic objective, are recorded in the Core Voluntary Contributions Account. Designated funds, earmarked at the level of Organization-wide expected result, disease, or programme, are not as tightly specified for detailed activity or expenditure line reporting as voluntary contributions — specified, yet are still earmarked rather than highly flexible so are categorized as voluntary contributions — core.

Note 2. Voluntary contributions — specified include Base programmes, Special programmes and collaborative arrangements and Outbreak and crisis response.

Note 3. These partnerships were established under the Fiduciary Fund as of 1 January 2012. Income from the financial period 2010—2011 was included and reported under voluntary contributions — specified.

Note 4. As reported in the Statement of Financial Performance for the year ended 31 December 2012 (see document A66/29), all activities implemented by WHO have been consolidated in the financial report. This includes voluntary contributions received under the General Fund, the Fiduciary Fund and the Special Purpose Fund. Voluntary contributions reported in Schedules 1 and 2 of the Annex include in-cash contributions only. In-kind and in-service contributions are reported separately in the Statement of Financial Performance and detailed in Schedule 5 of the Annex.
