

Draft twelfth general programme of work

Report of the Programme, Budget and Administration Committee of the Executive Board to the Sixty-sixth World Health Assembly

CORRIGENDUM

Kindly note the following amendment to the Annex of document A66/52:

New paragraph 2.

China, a member of the Committee, suggested that the draft general programme of work should contain a statement to the effect that the zero nominal growth of the assessed contributions should not continue, and that a small but sustained increase of assessed contribution needs to be considered in order to contain the trend of a growing imbalance of the budget structure.
