World Health Organization global disability action plan 2014–2021: better health for all people with disability

Draft resolution proposed by the delegation of Ecuador

The Sixty-seventh World Health Assembly,

Having considered the *World Health Organization report on disability* from 2011, the Secretariat report (document A67/16) and the draft *World Health Organization global disability action plan 2014–2021: better health for all people with disability*,

1. ADOPTS the *World Health Organization global disability action plan 2014–2021: better health for all people with disability*, attached to document A67/16;

2. URGES Member States to implement the proposed actions for Member States in the *World Health Organization global disability action plan 2014–2021: better health for all people with disability*, adapted to national priorities and specific contexts;

3. INVITES international, regional and national partners to implement the necessary actions to contribute to the accomplishment of the three objectives of the *World Health Organization global disability action plan 2014–2021: better health for all people with disability*;

4. REQUESTS the Director-General to implement the actions for the Secretariat in the *World Health Organization global disability action plan 2014–2021: better health for all people with disability* and to submit reports on the progress achieved in implementing the action plan, through the Executive Board, to the Seventy, and Seventy-fourth World Health Assemblies.
