

Annex to the Financial Report for the year ended 31 December 2014

Voluntary contributions by fund and by contributor

1. This document supplements the information provided in the Financial Report for the year ended 31 December 2014¹ and provides further details of voluntary contributions revenue, deferred revenue, accounts receivable, advances and contributions in-kind and in-service. It is composed of the following schedules:

Schedule 1 – Voluntary contributions, by fund

Schedule 2 – Voluntary contributions, by fund and by contributor

Schedule 3 – Deferred revenue, by fund and by contributor

Schedule 4 – Voluntary contributions receivable: non-current and current, by age and by contributor

Schedule 5 – In-kind and in-service voluntary contributions

Schedule 6 – Voluntary contributions received in advance for 2015

2. The accounting policies for accounts receivable and revenue are summarized in sections 2.3 and 2.15 of the Financial Report for the year ended 31 December 2014. Revenue from voluntary contributions is recognized in accordance with International Public Sector Accounting Standard 23 (Revenue from Non-Exchange Transactions). Revenue from voluntary contributions is recorded when a binding agreement is signed by WHO and the contributor. Where there are “subject to” clauses in an agreement, WHO does not control the resource and does not record the revenue and amount receivable until the cash is received. Where there are no payment terms specified by the contributor or payment terms are in the current accounting year, revenue is recognized in the current period. Where payment terms specify payment after the year end, the amount is reported as deferred revenue.

3. The basis of preparation is as follows. Each voluntary contribution is recorded through an award. The summary schedules presented in this document aggregate those awards, reporting contributions by fund and by contributor. Miscellaneous receipts and contributions totalling less than US\$ 10 000 are grouped together and reported as “Other”.

¹ Document A68/38.

Note 1. Voluntary contributions — core includes two types of revenue: funds received to support the Programme budget as a whole, considered fully or highly flexible; and funds that are earmarked for purposes within the Programme budget, considered designated, or medium flexible. Fully flexible funds and highly flexible funds, earmarked only at the level of the strategic objective, are recorded in the Core Voluntary Contributions Account. Designated funds, earmarked at the level of Organization-wide expected result, disease, or programme, are not as tightly specified for detailed activity or expenditure line reporting as voluntary contributions — specified, yet are still earmarked rather than highly flexible so are categorized as voluntary contributions — core.

Note 2. Voluntary contributions — specified include Base programmes, Special programmes and collaborative arrangements and Outbreak and crisis response.

Note 3. As of 1 January 2014, the Stop TB Partnership moved from the General Fund to the Fiduciary Fund. Effective 1 January 2015, the administration of the Stop TB Partnership and the Stop TB Partnership Global Drug Facility Fund has moved to the United Nations Office for Project Services (UNOPS). Negative revenue represents the cancellation of remaining amounts due under agreements and the transfer of funds to UNOPS under novated agreements.

Note 4. Activities under the Health Metrics Network ceased in May 2013. Negative revenue represents refunds of unspent amounts.

Note 5. Effective 1 January 2014, the European Observatory on Health Systems and Policy was moved from the General Fund to the Fiduciary Fund. It was previously reported under Special Programmes and Collaborative Arrangements.

Note 6. Activity in this fund was very limited and the small amounts remaining were transferred to the Reimbursable Procurement Fund effective 31 December 2013. Any new requests for teaching and laboratory equipment will be accounted for under the latter Fund.

Note 7. As reported in the Statement of Financial Performance for the year ended 31 December 2014 (see document A68/38), all activities implemented by WHO have been consolidated in the financial report. This includes voluntary contributions received under the General Fund, the Fiduciary Fund and the Special Purpose Fund. Voluntary contributions reported in Schedules 1 and 2 of the Annex include in-cash contributions only. In-kind and in-service contributions are reported separately in the Statement of Financial Performance and detailed in Schedule 5 of the Annex.

Note 1. Revenue from voluntary contributions is recognized in accordance with IPSAS 23 (Revenue from Non-Exchange Transactions). Revenue is recorded when a binding agreement is signed by WHO and the contributor. Where there are 'subject to' clauses in an agreement, WHO does not control the resource and does not record the revenue and amount receivable until the cash is received. Where there are no payment terms specified by the contributor or payment terms are in the current accounting year, revenue is recognized in the current period. Where payment terms specify payment after the year end, the amount is reported as deferred revenue. Revenue recognition will be revised based on changes to the payment terms listed in the signed agreement.

Note 2. Negative amounts represent a decrease in the revenue recognized in a prior period.

Note 3. Interfund revenue represents the transfer of funding internally between the General Fund and the Fiduciary Fund. These are recorded as an expense to the 'donor' fund and as revenue to the 'recipient' fund and are eliminated on consolidation.

Note 4. Refunds to donors represent an outflow of resources based on a donor request following the submission of a final report showing a balance of unutilized funds. Refunds represent a decrease in the revenue recognized in the current or a previous year.

REIMBURSABLE PROCUREMENT – funds received in advance of delivery of goods or services (Note 2)							63 429 320
GRAND TOTAL							649 131 541

Note 1. Deferred revenue is recognized based on legally binding agreements between WHO and its contributors where funds are earmarked and due in a future period. Deferred revenue – current (US \$367m) and non-current (US \$282m) are reported separately in the Statement of Financial Position in the financial report for the year ended 31 December 2014 (see document A68/38) and detailed as part of Note 4.13.

Note 2. As reimbursable procurement is an exchange transaction, any funds received in advance of delivery and services are reported as deferred revenue.

Note 1. Voluntary contributions receivable – current and non-current are reported in the Statement of Financial Position in the financial report for the year ended 31 December 2014 (see document A68/38) and detailed as part of Note 4.3.

Voluntary contributions receivable - non-current are amounts that according to the donor agreement are due to be received more than one year after the balance sheet date being reported.

Voluntary contributions receivable - current are amounts that according to the payment terms given in the agreement with the contributor are due as at or within one year of the balance sheet date, or where no payment terms are specified in the agreement. Amounts are aged from the due date of the invoice to the balance sheet date and hence amounts showing with ageing more than 360 days are overdue.
