

Mental health preparedness for and response to the COVID-19 pandemic

The Seventy-fourth World Health Assembly, having considered the consolidated report by the Director-General,¹

Decided to endorse the updated comprehensive mental health action plan 2013–2030, with due consideration for the plan's updated implementation options and indicators, given the need to support recovery from COVID-19, by means including promoting mental health and psychosocial well-being, building mental health services and psychosocial supports, and strengthening preparedness, response capacity and resilience for future public health emergencies.
