

Draft resolution: Revision of the Programme budget 2022–2023

The Seventy-fifth World Health Assembly,

(PP1) Having considered the proposed revision to the Programme budget 2022–2023;¹

(PP2) Having noted the report of the Programme, Budget and Administration Committee of the Executive Board to the Seventy-fifth World Health Assembly;

(PP3) Noting that in response to the coronavirus disease (COVID-19) pandemic, the proposed revision incorporates new lessons learned and takes account of emerging issues needing to be tackled that were not yet known at the time of approval of the Programme budget 2022–2023;

(PP4) Recalling resolution WHA74.3 (2021) on the Programme budget 2022–2023 in which the Director-General was requested to submit, as deemed necessary, a revised Programme budget 2022–2023, including its revised appropriation resolution, to the Seventy-fifth World Health Assembly to reflect the rapidly changing health situation of the world due to the COVID-19 pandemic, in the light of the findings of the independent reviews presented to the Seventy-fourth World Health Assembly;

(PP5) Considering that the proposed revision is also fully aligned with resolution WHA74.7 (2021) on strengthening WHO preparedness for and response to health emergencies;

(PP6) Noting also that the proposed revision includes resource requirements to strengthen leadership, accountability, compliance and risk management with a special focus on the Organization's capacity to prevent and respond to sexual exploitation, abuse and harassment,

OP1. APPROVES the revised programme budget for 2022–2023 with the additional elements as outlined in the proposed revision to the Programme budget 2022–2023;

OP2. FURTHER APPROVES the increase in the revised programme budget for 2022–2023 of US\$ 604.4 million in the base budget segment, which brings the level of the approved Programme budget 2022–2023 base segment to US\$ 4968.4 million;
