

**STATEMENT OF THE DELEGATION OF THE REPUBLIC OF INDONESIA
ON
AGENDA ITEM 23.K. PROGRESS REPORT: PUBLIC HEALTH DIMENSION OF THE
WORLD DRUG PROBLEM (DECISION WHA70(18) (2017))
OF THE SEVENTY THIRD WORLD HEALTH ASSEMBLY (RESUMED SESSION)
VIRTUAL, 9-14 NOVEMBER 2020**

Thank you Chair.

The Indonesian delegation would like to express the appreciation to the secretariat for organizing this important session on agenda item of progress report of public health dimension of the world drug problem.

The Government of Indonesia is strongly committed to implement the Public Health Dimension of the World Drug Problem Decision 2017. Efforts have been made to improve all capacities in the country involving all parties in the government and in the community.

With regards to the implementation of the Joint UNODC/WHO Programme on Drug Dependence Treatment and Care which focus on country support for the prevention and management of opioid overdose under the Stop Overdose Safely (SOS) initiative, Indonesia has developed a module for the health provider and community on the prevention and treatment of opioid overdose among Injection Drugs User (IDU).

Concerning the completion of work on updating the International standards for the treatment of drug use disorders, a national standard for treatment of drug use disorders is available instead of the international standards.

With regards to training of health professionals on the identification and management of drug use and drug use disorders during pregnancy, the training for health professional is available in Indonesia. Moreover, for the development of the Stop Overdose Safely (SOS) package for cascade training on opioid overdose prevention and management, at present a training module on prevention and treatment of opioid overdose has been completed.

Additionally, concerning the distribution of 40 000 ampoules of naloxone for effective management of opioid overdose, in Indonesia the provision of naloxone ampoules is done based on the needs of the particular health facilities. Finally, preparation on training of potential overdose witnesses is still in progress.

I thank you.
