

Permanent Mission
of the Republic of Indonesia to the UN, WTO,
and Other International Organizations
in Geneva

**STATEMENT BY THE DELEGATION OF THE REPUBLIC OF INDONESIA
AT THE 76th SESSION OF WORLD HEALTH ASSEMBLY
AGENDA 22.2 MATTERS EMANATING FROM THE WORKING GROUP ON SUSTAINABLE
FINANCING
25 May 2023**

1. Indonesia would like to thank the Secretariat for providing a comprehensive report on the progress of sustainable financing, including the report on the feasibility of a replenishment mechanism.
2. We would also like to appreciate the Co-Facilitators and members of the Agile Member State Task Group for their works.
3. Our commitment on sustainable financing should be driven to a way where an investment round can fully finance the base budget segment of the GPW 14th and it should be across programs, and not disease specific driven.
4. Noting that the first WHO Investment Round will be convened in the second half of 2024, we would like to recommend the following:
 - a. Prepare a comprehensive risk mitigation plan, and to map and mitigate potential issues, including on potential conflict of interest.
 - b. Create a mapping exercise of potential investors. This will help us ensure the adequacy of funding for each budget segment. Moreover, flexibility on using the budget according to the priorities set out by Member States should also be a priority.
 - c. Increase the frequency of consultations with Member States on the WHO Investment Round. This will help Member States to better understand and utilize the Investment Round, and finally
 - d. Maintain access for Member States to monitor the budget implementation for transparency and accountability.

Thank you.
