

THE UNITED REPUBLIC OF TANZANIA

78TH WORLD HEALTH ASSEMBLY

TANZANIA STATEMENT ON AGENDA ITEM

21.4 Scale of assessments for 2026 - 2027

Thank you Chair; The United Republic of Tanzania aligns with the statement delivered by Senegal on behalf of the African group and commends the comprehensive report on the agenda items.

We express appreciation to the Director-General for the report on the scale of assessments for 2026 - 2027, as outlined in document A78/22. We acknowledge that the proposed scale follows the most recent decisions of the United Nations regarding the sharing of financial responsibilities among Member States. We also note that WHO has made the necessary technical adjustments to align with its specific membership.

Tanzania supports this method, as it is fair, transparent, and ensures that countries contribute according to their capacity. We commend WHO for maintaining responsible financial planning and for ensuring that every Member State shares the duty of funding the Organization's vital work.

Chairperson, Tanzania's contribution remains at 0.010% for the 2026–2027 period. While this may be a modest percentage, we reaffirm our commitment to meet our obligation in full and on time.

Chairperson, Tanzania supports the draft resolution on this agenda item. We believe that predictable and sustainable financing is essential for WHO to continue

supporting countries, especially those with limited resources in strengthening health systems and preparing for health emergencies.

Thank you
