ORGANISATION MONDIALE DE LA SANTÉ

Special Committee established by the III WHA to consider the Draft International Sanitary Conventions

A3-4/SR/44
21 April 1951

ORIGINAL: FRENCH

DRAFT INTERNATIONAL SANITARY REGULATIONS

A3-4/SR/43 "Local Area"

Note by the Netherlands Delegation

With reference to its note A3-4/SR/43 concerning a definition of "local area", the Netherlands Delegation wishes to draw attention to the following proposal which it presented during the second meeting of the Committee (see A3-4/SR/Min/2, page 9), with regard to a new Article to be inserted between Articles 2 and 3, discussion of which was postponed to a later date.

"Each State shall notify to the Organization all the local areas existing in its territory. This notification shall be promptly extended on the creation of any new local area in the territory".

The Netherlands Delegation proposes that the words "indicating those local areas in which a port or airport is situated" be added to the first sentence, the new Article to be inserted between Articles 2 and 3, and to read as follows:

"Each State shall notify to the Organization all the local areas existing in its territory, indicating those local areas in which a port or airport is situated. This notification shall be promptly extended on the creation of any new local area in the territory".
