Agenda item 7.13

REQUEST SUBMITTED BY THE TURKISH DELEGATION

The delegation of Turkey,

Viewing with regret the conditions at present prevailing in the Eastern Mediterranean Region and preventing the regular annual meetings of its Committee;

Having heard the declarations of the delegations from other countries, members of the same Region, and at the same time continuing to hope that a satisfactory solution will be found as regards the said meetings;

Having no exact idea of the time required for such a solution;

Being anxious to safeguard the interests of its country;

Draws the attention of the Assembly to the fact that a part of its territory lies in Europe and, consequently,

Acting on instructions from its Government, requests the Fifth World Health Assembly to approve its application to be admitted to the European Region while remaining a member of the Eastern Mediterranean Region.
