

**AFR/RC30/R14:**

The Regional Committee,

Recalling resolution AFR/RC29/R8 concerning health and liberation struggles in Africa;

Having considered the Regional Director's report on measures taken to implement resolutions WHA33.33 and WHA33.34 concerning, respectively, "Assistance to front-line States" and "Assistance to the Republic of Zimbabwe";

Having regard to operative paragraph 3(1) of resolution WHA33.17: "Study of the Organization's structures in the light of its functions";

Noting the Regional Director's comments in his opening address concerning the close interrelations between political independence and health for all by the year 2000;

Aware that health by the year 2000 would be incomplete and unattainable without the national freedom of the populations of Namibia and South Africa;

Considering that national liberation is a prerequisite to the establishment of primary health care;

Aware that increased international pressure on South Africa would result in increasingly severe oppression of the populations of South Africa and Namibia and in increasingly violent attacks against the front-line states, Swaziland and Lesotho;

RECOMMENDS that the sixty-seventh session of the Executive Board adopt the following resolution:

"The Executive Board,

Having considered the report of the Regional Director on subjects of concern to the Regional Committee for Africa which deserve the Board's special attention;

Referring to resolutions WHA33.33 and WHA33.34 concerning collaboration with the United Nations system: Cooperation with newly independent and emerging States in Africa: Liberation struggle in Southern Africa;

Noting with satisfaction the measures taken by the Director-General and the Regional Director to implement the above-mentioned resolutions,

1. INVITES the Thirty-fourth World Health Assembly to continue its invaluable support to the national liberation movements recognized by the OAU, the front-line States, Swaziland and Lesotho, which are subjected to repeated aggression and economic blackmail by the racist regime of South Africa;
2. REQUESTS the Director-General:
  - (i) to continue cooperation in the health sphere with the national liberation movements recognized by the OAU and with the above-mentioned States, in collaboration with the United Nations, the specialized agencies and other bodies;
  - (ii) to strengthen the health development programme with the new Republic of Zimbabwe.
