

## AFR/RC30/R11: 1982-1983

The Regional Committee,

Having studied thoroughly the report presented by the Sub-Committee responsible for the proposed programme budget 1982-1983;<sup>1</sup>

Noting with satisfaction that the programme budget has been prepared in close and continuous collaboration with Member States;

Observing that this programme budget is the last to be prepared within the Sixth General Programme of Work (PGW) for the period 1978-1983 and the first to be prepared after the Alma-Ata conference on Primary Health Care (PHC);

Noting that, following the adoption of Portuguese as the third working language of the Region,<sup>2</sup> this document has for the first time been published in three volumes (English, French and Portuguese);

Emphasizing that the 1982-1983 programme budget is geared essentially to primary health care, the eight components of which are given high priority;

Convinced that activities have been broadly focused on the essential target of health for all by the year 2000,

1. EMPHASIZES that the detailed study by the Programme Sub-Committee has facilitated the work and decisions of the Regional Committee;
2. ENDORSES the Sub-Committee's conclusions and recommendations concerning the proposed 1982-1983 programme budget;
3. NOTES that the Regional Director's Development Programme is useful when new programmes are put into effect, particularly for Zimbabwe upon its accession to independence;
4. COMMENDS the Regional Director and his staff their precise and rational presentation of the programme budget for 1982-1983;
5. REQUESTS the Regional Director to transmit the proposals for 1982-1983 to the Director-General for study and inclusion in the proposed programme budget of the Organization for 1982-1983.

September 1980, **30**, 11
