

AFR/RC3/Sub.Cttee/R3: Staff housing

The ad hoc Committee,

Having noted the difficulties encountered in respect of housing for the personnel of the Regional Office,

Having noted the statements of the Representative of France to the effect that in conformity with Article X, Section 30, of the Host Agreement with the World Health Organization, his Government had supplied some housing facilities required by the personnel of the office at the most favourable conditions then existing, and had already begun a study of additional measures,

NOTES that the measures envisaged would probably permit:

- (a) the placing of adequate housing facilities at the disposal of the Regional Office,
- (b) a decrease in the financial burden of housing facilities for the Organization as well as for its personnel; and

REQUESTS the Regional Director to maintain contact with the French Authorities concerning the implementation of all practical measures implied in the new scheme for the provision of housing.

December 1953, **3SC**, 6
