

**AFR/RC2/R4: 1953**

The Regional Committee,

Having noted that the proposed budget for 1953 presented to the World Health Assembly does not correspond with that studied by the Regional Committee,

RECOMMENDS the Director-General that particular attention in matters of programme and budget be paid to the proposals of the Regional Committee and that, when alterations which he deems necessary are made, the attention of World Health Assembly should be drawn to them, with the reasons for such modifications.
