ADDITIONAL FUNDS FOR THE BUDGET OF THE
WORLD HEALTH ORGANIZATION

(Proposal by Professor M. De Laet)

The Executive Board recommends that the Fourth World Health Assembly adopt the following resolution:

Considering that an increase in available funds for the budget of WHO is highly desirable in order to carry out the programme progressively incumbent on the Organization;

Acknowledging that the setting up of a World Health Defence Fund cannot be envisaged in the present international financial situation,

The Fourth World Health Assembly

REQUESTS the Director-General

1. To seek other sources of additional funds for the budget of WHO, proportionate to the essential requirements of its programme and, in particular, to explore the possibility of arranging an agreement with Member States, or with some of them, for the imposition of a tax on certain products; and
2. To report on this subject to a later session of the Executive Board.
