EXPERT COMMITTEE ON BIOLOGICAL STANDARDIZATION
Report on fifth session

The Director General presents to the members of the Executive Board document WHO/BS/136, report on the fifth session of the Expert Committee on Biological Standardization.

The Board may wish to note particularly:

1. paragraph 18, National Control Centres, in which the Committee recommends that the regional system of administration should not apply to the distribution and control of biological standards, but that direct contact between the international centres in Copenhagen and London and the national control centres in each Member State should be maintained;
2. paragraph 22, Proposed Expert Committee on Diphtheria Toxoid Standardization, in which it is recommended that ~~no meeting of this committee~~ should be held in 1952.
