DEVELOPMENTS IN ACTIVITIES ASSISTED JOINTLY WITH UNICEF

(Amended version of the draft resolution proposed by the Rapporteurs)

The Executive Board,

Having considered the report of the Director-General on developments in activities assisted jointly with UNICEF;¹

Aware of the Declaration of UNICEF on a Long-Term Policy for Children in Relation to the Development Decade;

Cognizant of the fact that, in many developing countries, basic health services must be established in order to apply known measures for the control of prevalent communicable diseases;

Recognizing that malaria eradication in Africa is technically feasible provided the necessary health organization has been established; and

Recalling that social and economic development can be attained and enjoyed only by a healthy people,

1. NOTES the Report of the Director-General;
2. REITERATES the importance of the health needs of children forming part of general plans for health services;
3. EMPHASIZES the importance of malaria eradication activities as a pre-requisite for social and economic progress and particularly for agricultural development;
4. WELCOMES UNICEF's continued support of programmes for the establishment of basic health services, and for mass control and eradication campaigns against communicable diseases;

¹ Documents EB31/11 and Add.1 & Add.1 Corr.1

5. EXPRESSES the hope that UNICEF will continue to give increasing material support to malaria eradication programmes, with particular emphasis on assistance to newly developing countries in Africa;

6. STRESSES the importance of basic health services as an essential part of malaria eradication and communicable disease control; and

7. EXPRESSES its satisfaction with the continuing co-operation between the two Organizations in all aspects of the work jointly assisted by them.
