

THIRTY-FIFTH WORLD HEALTH ASSEMBLY

WHA35.26

14 May 1982

INTERNATIONAL CODE OF MARKETING OF BREAST-MILK SUBSTITUTES

The Thirty-fifth World Health Assembly,

Recalling resolution WHA33.32 on Infant and Young Child Feeding and resolution WHA34.22 adopting the International Code of Marketing of Breast-Milk Substitutes;

Conscious that breast-feeding is the ideal method of infant feeding and should be promoted and protected in all countries;

Concerned that inappropriate feeding practices of infants result in greater incidence of infant mortality, malnutrition and disease, especially in conditions of poverty and lack of hygiene;

Recognizing that commercial marketing of breast-milk substitutes for infants has contributed to an increase in artificial feeding;

Recalling that the Thirty-fourth World Health Assembly adopted an International Code intended to, inter alia, deal with these marketing practices;

Noting that while many Member States have taken some measures related to improving infant and young child feeding, few Member States have adopted and adhered to the International Code as a "minimum requirement" and implemented it "in its entirety", as called for in resolution WHA34.22;

URGES Member States to give renewed attention to the need to adopt national legislation, regulations or other suitable measures to give effect to the International Code;

REQUESTS the Director-General

- (a) to design and coordinate a comprehensive programme of action to support Member States in their efforts to implement and monitor the Code and its effectiveness;
- (b) to provide support and guidance to Member States as and when requested to ensure that the measures they adopt are consistent with the letter and spirit of the International Code;
- (c) to undertake, in collaboration with Member States, prospective surveys, including statistical data of infant and young child feeding practices in the various countries, particularly with regard to the incidence and duration of breast-feeding.
