

WHO response to global change

Methods of work of the Executive Board

(Draft decision proposed by the Rapporteurs)

The Executive Board, having noted the reports on the WHO response to global change of both the Programme Committee of the Executive Board and the Director-General concerning methods of work of the Executive Board,¹ approves the new presentation used for Executive Board documents and decides that summary records be shortened by a further 20%, maintaining a concise account of facts, decisions and opinions attributed to speakers, but omitting the coverage of introductory remarks by members of the Secretariat, abbreviating their replies, and replacing introductory remarks by representatives of the Board at the Health Assembly by the appropriate reference to the earlier context or document.
