

RELEVÉ ÉPIDÉMIOLOGIQUE HEBDOMADAIRE WEEKLY EPIDEMIOLOGICAL RECORD

33^e ANNÉE

33rd YEAR

SOMMAIRE	Page	CONTENTS
Notifications de maladies quaranténaires	202	Notifications of quarantinable diseases
Maladies quaranténaires: Zones infectées au 12 avril 1958	207	Quarantinable diseases: Infected areas on 12 April 1958
Ports agréés et désignés pour la délivrance des certificats de dératisation et d'exemption de la dératisation Malaisie, Fédération de	211	Ports approved and designated for the issue of deratting and deratting exemption certificates Federation of Malaya
Fièvre jaune: Indices d' <i>Aedes aegypti</i> Côte française des Somalis	211	Yellow fever: <i>Aedes aegypti</i> index French Somaliland
Paludisme	212	Malaria

Ce Relevé contient les renseignements reçus des administrations sanitaires nationales par l'OMS en son siège, ses bureaux régionaux, à Alexandrie et Washington, et la Station d'information épidémiologique de Singapour.

Les notifications prescrites par le Règlement sanitaire international et les accords sanitaires internationaux en vigueur, concernant les mesures quaranténaires, les vaccinations et autres sujets, sont publiées telles qu'elles sont reçues des Gouvernements, même lorsqu'elles semblent dépasser les dispositions de cette législation. Dans ce dernier cas, le gouvernement intéressé est averti des divergences constatées.

Les administrations sanitaires sont invitées à présenter toute remarque à l'OMS à l'adresse suivante :

Section de la Quarantaine internationale
Adresse télégraphique : EPIDNATIONS, GENÈVE

This Record is compiled from information received from National Health Administrations, by WHO Headquarters, Regional Offices at Alexandria and Washington, and the Epidemiological Intelligence Station at Singapore.

Notifications required under the International Sanitary Regulations and existing international sanitary agreements are, in respect of quarantine measures, vaccination and other items, published as received from reporting Governments, even though the contents of such notifications appear to be in excess of the provisions of that legislation. In the latter event, the attention of the Government concerned will be drawn to discrepancies.

Health Administrations are invited to present their comments to WHO, addressed to :

Section of International Quarantine
Telegraphic Address : EPIDNATIONS GENÈVE.

PALUDISME — MALARIA

RÉSISTANCE DES VECTEURS AUX INSECTICIDES

INSECTICIDE RESISTANCE IN VECTORS

Résumé des renseignements reçus au 15 avril 1958 sur les cas confirmés de résistance de vecteurs naturels du paludisme aux hydrocarbures chlorés insecticides.

Summary of information received up to 15 April 1958 in respect of confirmed cases of resistance of natural vectors of malaria to chlorinated hydrocarbon insecticides.

							June 1956

* La résistance à la diéldrine s'étend caractéristiquement à l'aldrin, à l'HCH, au chlordane et à d'autres cyclodiéniques.

¹ Des études ultérieures ont montré que la résistance à la diéldrine s'observe sur un large territoire du Sokoto occidental comprenant notamment la ville de Kano.

² La sensibilité aux hydrocarbures chlorés est inconnue. Il n'a pas été fait d'essai avec l'HCH à Skala. Une résistance a été constatée en Grèce depuis 1951.

³ Pas de renseignements reçus sur les essais faits avec insecticides autres que DDT.

⁴ L'ARAMCO a précédemment constaté l'existence d'une résistance.

⁵ On a observé une résistance d'*A. subpictus subpictus* au DDT dans l'état de Delhi, Inde (1957) où l'espèce n'est pas vectrice du paludisme.

* Dieldrin resistance characteristically extends to aldrin, BHC, chlordane and other cyclodiene derivatives.

¹ Subsequent studies have shown that dieldrin resistance extends over a large area of W. Sokoto in which Kano is included.

² Susceptibility to chlorinated hydrocarbons unknown. BHC not tested in Skala. Resistance in Greece recognized since 1951.

³ Information not received on tests carried out with insecticides other than DDT.

⁴ Resistance recognized by ARAMCO at an earlier date.

⁵ *A. subpictus subpictus* resistance to DDT has been found in Delhi State, India (1957) where the species is not a vector of malaria.
