This country snapshot provides an overview of national data relating to sexual and reproductive health and rights (SRHR) throughout the life course. Realization of SRHR requires provision of comprehensive, people-centred services, that address the different elements of SRHR, and which are supported by an enabling environment, quality health systems, and meaningful community engagement. Multiple, synergistic cross-linkages exist within and between the different SRHR elements, leading to sequential outcome benefits throughout the life course.

By highlighting the national SRHR situation - including successes, areas for improvement, and data gaps - this snapshot can be used for determining priorities, planning of programmes, resource mobilization, and strengthening of health systems, service delivery and community engagement.

This snapshot uses the latest data publically available at the publication date, from reputable international sources (see endnotes for the year and source of each data point). It is acknowledged that intersectionality and people-centredness are not well reflected in available data, and that many categories of information currently collected are gender-binary.
Demographic data

- Population size: 2.1m
  - Female: 1.0m
  - Male: 1.0m

Life expectancy at birth:
- Female: 84.1
- Male: 78.6

Population age distribution:
- 0-14: 15.1%
- 15-24: 9.1%
- 25-49: 33.6%
- 50+: 42.2%

Sexual and Reproductive Health

- Total fertility rate: 1.6 births per woman
- Adolescent birth rate: 3.8 per 1,000 women aged 15-19
- Median age at first sex among young people (20-24): ND

HIV

- Number of new HIV infections
  - Child (0-14): ND
  - Female (15-24): ND
  - Male (15-24): ND
  - Female (25-49): ND
  - Male (25-49): ND
  - Female (50+): ND
  - Male (50+): ND
  - Total: ND

- Number of people living with HIV
  - Child (0-14): ND
  - Female (15-24): ND
  - Male (15-24): ND
  - Female (25-49): ND
  - Male (25-49): ND
  - Female (50+): ND
  - Male (50+): ND
  - Total: ND

- Number of AIDS related deaths
  - Child (0-14): ND
  - Female (15-24): ND
  - Male (15-24): ND
  - Female (25-49): ND
  - Male (25-49): ND
  - Female (50+): ND
  - Male (50+): ND
  - Total: ND

HIV incidence per 1,000 population (15+): ND

HIV prevalence among adults (15-49): ND
**Impact on integrated SRHR:**

Supportive  Partial  Punitive

Laws and policies

**People living with HIV**

Are there laws or policies that:

- Criminalize transmission, exposure or non-disclosure of HIV\(^{19}\)  ND
- Restrict entry, stay and residence of people living with HIV\(^ {20}\)  ND
- Protect against discrimination on basis of HIV status\(^ {21}\)  ND
- Allow HIV self-testing\(^ {22}\)  No
- Make oral pre-exposure prophylaxis for HIV (PrEP) available\(^ {23}\)  ND

**Key populations**

Are there laws or policies that:

- Criminalize same-sex sexual behaviour\(^ {24}\)  No
- Criminalize sex work\(^ {25}\)  ND
- Allow the death penalty for people convicted of drug-related offences\(^ {26}\)  ND
- Support a harm reduction approach for people who use drugs\(^ {27}\)  ND
- Legally recognize a third gender\(^ {28}\)  ND

**SRHR and gender-based violence**

Are there laws or policies that:

- Allow safe abortion\(^ {29}\):
  - To save a woman’s life  Yes
  - To preserve a woman’s physical health  ND
  - To preserve a woman’s mental health  ND
  - In case of rape  ND
  - In case of incest  ND
  - Owing to foetal impairment  ND
  - For economic or social reasons  ND
  - On request  Yes
- Require spousal consent for married women to access SRH services\(^ {30}\)  ND
- Explicitly criminalize marital rape\(^ {31}\)  Yes
- Criminalize domestic violence\(^ {32}\)  Yes
- Criminalize sexual harassment\(^ {33}\)  Yes
- Require provision of CSE in primary school\(^ {34}\)  ND

| National strategy or policy on self-care interventions\(^ {35}\) | ND |

**Extent to which laws and regulations guarantee access to SRH care and education (SDG 5.6.2)\(^ {36}\)**

<table>
<thead>
<tr>
<th>Maternity care</th>
<th>Family planning</th>
<th>CSE</th>
<th>Sexual health</th>
<th>Total</th>
</tr>
</thead>
<tbody>

Laws requiring parental consent for adolescents to access SRH services\(^ {39}\)  ND

**Women’s empowerment**

Percentage of women that believe they should have final say in decisions regarding their own healthcare\(^ {40}\)  ND

Percentage of women (15-49) making SRHR decisions\(^ {41}\)  ND

**Global Gender Gap Index\(^ {42}\)**

Ranking (out of 156 countries)  41

**Stigma**

Percentage of general population reporting discriminatory attitudes towards people living with HIV\(^ {43}\)  ND

**ENABLING ENVIRONMENT**

Supportive laws and policies, and access to justice are essential to eliminate stigma, discrimination, violence, coercion and exclusion in health care. Such laws and policies create a safe and supportive enabling environment that meets the SRHR needs of all people, especially key and vulnerable populations. Harmful laws need to be amended, and damaging practices need to be countered at all levels.

ND = No Data

**Global Targets:**

- Achieved
- Challenges remain
- Major challenges remain
**Universal Health Coverage**

Coverage of essential health services (SDG 3.8.1)\(^{44}\)

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Status</th>

Catastrophic health spending (SDG 3.8.2)

Households where expenditure on health is greater than:

- 10% of income\(^{45}\) - 2.9%
- 25% of income\(^{46}\) - 0.3%

**Governance**

Legislation on universal health coverage\(^{47}\)

- Yes

**Health workforce**

Skilled health professionals (per 10,000 population)

- Doctors\(^{48a}\) - 31.7
- Nurses and Midwives\(^{48b}\) - 102.2
- Pharmacists\(^{48c}\) - 7.06

**Supply Chain**

Availability of essential medicines and commodities in Public Health facilities\(^{49}\)

- ND

Male condom stock-out in the past 12 months\(^{50}\)

- ND

**Health information**

Paper-based or electronic health information system\(^{51}\)

- ND

Antenatal care data captured in health information system\(^{52}\)

- ND

**Health financing**

Total health expenditure as a percentage of GDP\(^{53}\)

- 8.3%

Government health expenditure as percentage of GDP\(^{54}\)

- 6.0%

Total health expenditure per capita (USD)\(^{55}\)

- $2169.6

Government expenditure on reproductive health per capita (USD)\(^{56}\)

- ND

**Integrated service delivery**

Health facilities delivering HIV counselling and testing with SRH services\(^{57}\)

- Data Not Available

Health facilities delivering HIV treatment and care with SRH services\(^{58}\)

**HEALTH SYSTEMS**

Universal health coverage (UHC) is central to achieving better health and well-being for all people throughout the life course. Reaching UHC requires transforming health systems away from vertical and top-down approaches towards integrated, people-centred, supportive systems for health. Comprehensive SRHR, within UHC, is crucial to support progress towards advancing health and wellbeing for all.

ND = No Data
**Contraception / Family Planning**

| Demand for family planning satisfied with a modern method of contraception (15-49) | ND |
| Knowledge of modern contraceptive methods | ND |

**SERVICE DELIVERY: SEXUAL HEALTH**

Sexual health is a state of physical, emotional, mental and social well-being in relation to sexuality. It requires a positive and respectful approach to sexuality and sexual relationships, as well as the possibility of having pleasurable and safe sexual experiences, free of coercion, stigma, discrimination and violence.

**ND** = No Data

### Global Targets:
- Achieved
- Challenges remain
- Major challenges remain

### HIV prevention
- Condom use at last high risk sex (15-49)\(^7^7\)
  - Male circumcision\(^7^8\)

### 95-95-95 testing and treatment cascade
- People living with HIV who know their status (15+)\(^7^9\)
- People living with HIV who are on ART (15+)\(^1^0\)
- People living with HIV on ART who achieve viral load suppression (15+)\(^1^1\)

### PrEP and HIV self-testing
- Current oral pre-exposure prophylaxis for HIV (PrEP) users\(^8^2\)
- HIV self tests conducted\(^8^3\)

### Syphilis
- Active syphilis among men who have sex with men\(^8^4\)
- Active syphilis among sex workers\(^8^5\)

### Gender based violence
- Women experiencing physical or sexual violence in past 12 months (15-49)\(^8^6\)
- Wife agrees husband justified beating her - at least one reason specified\(^8^7\)

### Care/support provided by service delivery points in cases of rape or incest
- First-line support (psychological first aid)\(^8^8\)
- Emergency contraception for women (within 5 days)\(^8^9\)
- Safe abortion (in accordance with national laws)\(^9^0\)
- Post-exposure prophylaxis for STIs and HIV (within 72 hours)\(^9^1\)

### Cervical cancer
- Existence of national HPV vaccination programme\(^9^2\)
- Existence of national cervical cancer screening programme\(^9^3\)

### Type of programme\(^9^4\)
- organized-population-based-screening

### Coverage of national screening programme\(^9^5\)
- 70%+
### SERVICE DELIVERY: SEXUAL AND REPRODUCTIVE HEALTH FOR ALL

Everyone has the right to access sexual and reproductive health services and information, free of force or coercion, and irrespective of age, sex, sexual orientation, gender identity, ability, socio-economic or occupational status.

**ND = No Data**

**Global Targets:**
- Achieved
- Challenges remain
- Major challenges remain

### Harmful practices

- **Girls married before 18**
- **Female genital mutilation / cutting**

### Comprehensive Sexuality Education

- **Primary schools fully implementing national CSE policy**
- **Secondary schools fully implementing national CSE policy**

### Adolescent sexual health

- **Had multiple partners and used a condom at last sex (15-19)**

### Key populations

<table>

The cutoff for data included in this Infographic Snapshot is 15/04/2021. The year provided for each endnote is the date of the latest available data with an earliest date of 2011. Where data is not available in an international data source ‘No data’ is stated. This does not mean that no data exists for this indicator but that no data was found in internationally validated data sources.

11. 2017. Indicator: SDG3.2.1. The estimated number of women, between the age of 15-49, who die from pregnancy-related causes while pregnant or within 42 days of termination of pregnancy, per 100,000 live births. Source: SDG database - https://unstats.un.org/sdgs/indicators/database
36. 2019. Indicator: SDG 5.6.2. Extent to which countries have laws and regulations that guarantee full and equal access to women and men aged 15 years and older to SRH care, information and education. Source: SDG database - https://unstats.un.org/sdgs/indicators/database
40. No Data. Indicator: Percentage of married women who say that they have the legal right to make decisions about their sexual and reproductive health. Source: DHS - http://www.statcompiler.com/

43. No Data. Indicator: Percentage of women and men 15–49 years old who report discriminatory attitudes towards people living with HIV. Source: UNAIDS - https://aidsinfo.unaids.org

47. 2017. Indicator: Countries that have passed legislation on universal health coverage. Source: WHO Global Health Observatory - http://apps.who.int/gho/portal/uhc-hs-cabinet-wrapper-v2.jsp?id=1030103

56. 2018. Indicator: Percentage of total demand for family planning among married or in-union women aged 15 to 49 that is satisfied with modern methods (modern contraceptive prevalence divided by total demand for family planning). Source: SDG database - https://unstats.un.org/sdgs/indicators/databse

60. No Data. Indicator: Percentage of women ages 15-49 who experienced physical or sexual violence from a current or former intimate partner in the past 12 months. Source: SDG database - https://unstats.un.org/sdgs/indicators/databse

61. No Data. Indicator: Percentage of women ages 15-49 who believe a husband/partner is justified in hitting or beating his wife/partner for any of the following five reasons: argues with him; refuses to have sex; burns the food; goes out without telling him; or when she neglects the children. Source: Demographic and Health Surveys (DHS) and Multiple Indicator Cluster Surveys (MICS) - http://data.worldbank.org/indicator/SG.VAW.REAS.ZS

65. No Data. Indicator: Percentage of women aged 15 to 49 with a live birth in a given time period that received antenatal care four or more times Source: UNICEF. Antenatal care coverage database - http://data.unicef.org/maternal-health/antenatal-care.html

68. No Data. Indicator: Percentage of women with a postnatal checkup in the first two days after birth. Source: UNICEF - https://data.unicef.org/dev/index

72. No Data. Indicator: Percentage of women accessing antenatal care services who were tested for syphilis at first antenatal care visit. Source: WHO Global Health Observatory data repository - http://apps.who.int/gho/data/view.main.23610

74. 2015. Indicator: Congenital syphilis rate per 100,000 live births. Source: WHO Global Health Observatory data repository - http://apps.who.int/gho/data/view.main.CONGENITALSYFSTv

80. No Data. Indicator: People living with HIV who know their status who are on ART (15+). Source: UNAIDS estimates - https://aidsinfo.unaids.org

86. No Data. Indicator: SDG 5.2.1. Proportion of ever-married or partnered women aged 15-49 who experienced physical or sexual violence from a current or former intimate partner in the past 12 months. Source: SDG database - https://unstats.un.org/sdgs/indicators/databse

87. No Data. Indicator: Percentage of women ages 15-49 who believe a husband/partner is justified in hitting or beating his wife/partner for any of the following five reasons: argues with him; refuses to have sex; burns the food; goes out without telling him; or when she neglects the children. Source: Demographic and Health Surveys (DHS) and Multiple Indicator Cluster Surveys (MICS) - http://data.worldbank.org/indicator/SG.VAW.REAS.ZS

88. No Data. Indicator: Service delivery points provide care/support for women/men who have been raped/experienced incest: first-line support (psychological first aid) - according to national authorities. Source: UNAIDS Laws and Policies Analytics - http://lawspolicies.unaids.org/
