

CENTRAL NERVOUS SYSTEM REACTIONS RELATED TO THE  
ANTIMALARIAL DRUG, MEFLOQUINE<sup>1</sup>

## CORRIGENDUM

The following errors need to be corrected as indicated:

- page 5: fourth paragraph, third line, "45 mg mefloquine" should be replaced by "45 mg primaquine".

fifth paragraph, line ten, "and two had received" should be replaced by "and three had received".

- pages 9 and 10: the numbering of the paragraphs should be corrected as follows:

"5.2 Causal association with risk factors"

"5.3 Current guidelines for mefloquine use"

"5.4 The future"

"5.4.1 Research"

"5.4.2 MAP/WHO surveillance of adverse events to antimalarials"

These changes in paragraph numbering should also be made in the "CONTENTS" table page 2, i.e., 5.2 and 5.3 should be deleted and be replaced by the following:

	<u>Page</u>
"5.2 Causal association with risk factors .....	9
5.3 Current guidelines for mefloquine use .....	9
5.4 The future .....	9"

<sup>1</sup> Report of an informal consultation held in Geneva on 17 July 1989 and organized by Research and Technical Intelligence, Malaria Action Programme and the Scientific Working Group on the Chemotherapy of Malaria, UNDP/World Bank/WHO Special Programme for Research and Training in Tropical Diseases. For list of participants, please see Annex 1.
