Issues for consideration		

### Issues for consideration

#### Density above threshold, no estimation for shortage.

\*As compared to a benchmark density. Details in *State of the world's nursing 2020 report* and *Global Strategy on Human Resources for Health: Workforce 2030* 

Source: National Health Workforce Accounts (NHWA), 2020 except †. Latest available data are displayed. Includes multiple data sources such as the OECD/Eurostat/WHO EURO Joint Data Collection, labour force survey, census data and estimates from WHO for shortages. Stock and density projection by 2030 based on a simple stock and flow model. See full report for further details.
